CALENDAR ITEM NO. **C38** (CONT'D)

**OTHER PERTINENT INFORMATION:**

1. Applicant owns the upland adjoining the lease premises.
2. On August 15, 2014, the Commission authorized a General Lease – Recreational and Protective Structure Use to Laurie Ann Davis. The lease expires on October 21, 2020. Staff made several unsuccessful attempts to obtain a signature on the lease. On August 14, 2015, the property was transferred to Brian Reisbeck and Diane Reisbeck. The Applicant has applied for a General Lease – Recreational and Protective Structure Use.
3. Staff is requesting that the authorization made by the Commission at its August 15, 2014 meeting, Calendar Item 19, be rescinded.
4. The public's right to use California's waterways for navigation, fishing, and water-borne commerce is protected by the common law Public Trust Doctrine. Historically, the Public Trust ensures the right of the public to use its waterways to engage in "commerce, navigation, and fisheries." More recently, the Doctrine has been broadened by various court decisions to include various forms of water recreation, visitor-serving facilities, and preservation of lands in their natural state in order to protect scenic and wildlife habitat values. The Public Trust, as a common law doctrine, is not static but is continuously evolving to protect the public's needs and values inherent in the use of California's waterways.
5. The proposed application seeks authorization for the continued use and maintenance of an existing deck, patio, uncovered floating boat dock, gangway, landing, dolphins, walkway, parking lot fill, and bank protection. The uncovered floating boat dock, gangway, landing, dolphins, and walkway are water-dependent facilities used for the docking of boats in order to aid in the navigation of the Sacramento River and other navigable waterways in the greater region. These particular facilities promote and accommodate recognized Public Trust needs and values consistent with Public Trust Doctrine. The deck, patio and parking lot fill have existed in the Sacramento River for many years and have a relatively small footprint. As such, the deck, patio and parking lot fill does not substantially interfere with the needs and values of the Public Trust Doctrine at this location and for the foreseeable future, as defined by the term of the proposed non-exclusive lease.
6. The bank protection will mutually benefit both the public and the Applicant. The bank of the Sacramento River will have additional protection from wave action provided at no cost to the public.

7. Rescission of the lease approval is not a project as defined by the California Environmental Quality Act (CEQA) because it is an administrative action that will not result in direct or indirect physical changes in the environment.

Authority: Public Resources Code section 21065 and California Code of Regulations, Title 14, section 15378, subdivision (b)(5).

8. The staff recommends that the Commission find that issuance of the lease is exempt from the requirements of CEQA as a categorically exempt project. The project is exempt under Class 1, Existing Facilities; California Code of Regulations, Title 2, section 2905, subdivision (a)(2).

Authority: Public Resources Code section 21084 and California Code of Regulations, Title 14, section 15300 and California Code of Regulations, Title 2, section 2905.

9. This activity involves lands identified as possessing significant environmental values pursuant to Public Resources Code section 6370 et seq., but such activity will not affect those significant lands. Based upon the staff's consultation with the persons nominating such lands and through the CEQA review process, it is the staff's opinion that the project, as proposed, is consistent with its use classification.
